“Purvi, Thank You for finding us our new home. I have worked with many realtors in the process of finding the home and you were the first one to ask me for what I needed and did the due diligence - including visiting the properties - before presenting to us. This saved us a lot of time. Plus, you were the first realtor to tell us what you thought of a property and were willing to go up against the sellers. Your negotiating skills helped us save tens of thousands of dollars. I have recommended you to several of my friends and I hope to continue working with you in the future.”

If you are truly looking for your ultimate dream house, look no further than Purvi Parikh, the “Household Name”.
